I'm Uyyala Ashwan Kumar, currently pursuing a B. Tech in Computer Science and Information Technologies. I am a versatile individual who combines the creativity of an artist with the problem-solving skills of a programmer. With experience hosting 5 events, I love to deal with new problems and challenge myself in each and every step.

My coding expertise revolves around Java and Python. Additionally, I'm a web developer. My aspiration is to seamlessly integrate technology and creativity to drive significant and Meaningful contributions.
